

How to Register for Coach/Player Referee Training

The Coach/Player Referee Training available through the Washington Soccer Referee Committee (WSRC) website provides training using video modules provided by USSF. These lessons make up most of the online lesson portion of the requirements to become an entry level (new) referee for Washington state. Registration (fees) and an in-person clinic is also required if you want to be a referee.

Each module requires the user to watch the entire module and answer questions about the module before they pass the module. Completing and passing all the modules will give the user a good understanding of the "Laws of the Game".
